Skim milk is a food of low nutritional value and low food value (less amount of calories per gram) and also high volume of milk because of its large quantity of water. I'm guessing that you have been trying to install it for quite a while and it has just been a bit of a struggle for you to get it to work. The "On sale" category shows new versions of software. That means it has been less than 30 days between your purchase and when you tried to use it. If you have been trying to use it for more than 30 days, chances are that you have just been struggling with getting it to work (as you have just described). Do not attempt to run Virtual DJ Pro 7.4.1 Build 482 with the activation code. Virtual DJ is not in the "On sale" category, it is just in the "New" category.
