A: You can try `\startusecase{Horizontal dark background}` `\stopusecase` to prevent page break between usecases. Q:  $H^2$  of the product of  $C^\infty$  functions Let  $X, Y \subseteq \mathbb{R}^n$  be open sets. Assume  $f: X \times Y \rightarrow \mathbb{R}$  is  $C^\infty$ . Is it true that  $H^2(X \times Y) \cong H^2(X) \times H^2(Y)$  given by  $f \mapsto (u_X, u_Y)$  is an isomorphism? A: Yes, this is true. In fact, you have an explicit isomorphism as follows. Let  $f$  be a  $C^\infty$  function on  $X \times Y$  which is zero on the diagonal  $\Delta \subseteq X \times Y$ . Then it defines a  $C^\infty$  function on  $X$  via  $f(x) = f(x, x)$ , and on  $Y$  via  $f(y) = f(y, y)$ , both vanishing on the respective diagonals. By taking the first two derivatives and using the product rule, we get  $H^2(X \times Y) \cong H^2(X) \oplus H^2(Y)$ . This isomorphism is precisely given by  $f \mapsto (f|_X, f|_Y)$ . Q: PHP Form Submit Issue So I'm trying to make my website behave like a store. On the main page, I have a drop down menu of all the different branches. When you click on a certain one, a page will load with the information for that branch. The way I have the drop down menu is that it calls a page with the relevant information. The problem is, when I click on another page, the drop down menu doesn't appear again. I've tried adding in a bit of javascript to try and get it to reappear again but I can't make it work. This is my code. I can't think of what I've done wrong.
