Apr 27, 2005 Welcome to AutoCAD Electrical Forums.. 02-27-2005 04:35 PM. I'm trying to create a new panel layout, but everytime I try to open the panel, it errors out and says " Unable to open document: System.IO.FileNotFoundException: Could not find file AutoCAD Electrical RCRM Software Configuration Workshop.pdf. Press F1 for details". I'm pretty sure the file is there because it was working before I upgraded to 2005. Any help is appreciated. Jul 23, 2005 Welcome to Autodesk's AutoCAD Electrical Forums.. 07-23-2005 03:29 PM. If you get an error-message not related to PDF files, it is possible the problem is in the AutoCAD Electrical installation. Jul 2, 2005 Welcome to Autodesk's AutoCAD Electrical Forums.. 07-02-2005 01:06 PM. I have a question.. I just downloaded the 2005 version of AutoCAD electrical and I have a question about the new printable "engineering" panels that are now part of the electrical submenu. These have made it much easier to make a schematic or diagram. I just don't quite understand how I can save these panels and use them in another project. The panels appear in the location I select when I edit projects, but I can't find a way to save them as a project. Mar 11, 2005 Welcome to Autodesk's AutoCAD Electrical Forums.. 03-11-2005 12:10 AM.
